Overlock - Wikipedia An overlock is a kind of stitch that sews over the edge of one or two pieces of cloth for edging, hemming, or seaming. Usually an overlock sewing machine will cut the edges of the cloth as they are fed through (such machines being called "sergers" in North America), though some are made without cutters. The inclusion of automated cutters allows overlock machines to create finished seams easily ... Smocking - Wikipedia Smocking is an embroidery technique used to gather fabric so that it can stretch. Before elastic, smocking was commonly used in cuffs, bodices, and necklines in garments where buttons were undesirable. Smocking developed in England and has been practised since the Middle Ages and is unusual among embroidery methods in that it was often worn by laborers. . Other major embroidery styles are ...
